

# TOSHIBA

## APEC 2026

### SEE THE SEMICONDUCTOR SOLUTIONS

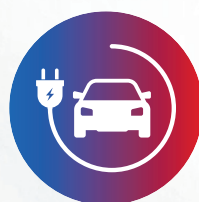

### Powering Possibilities

For 150 years, Toshiba has built trusted technologies and enduring partnerships that drive progress across industries. Our semiconductors sit at the core of the systems shaping modern life - and the ones being built next - from mobility and infrastructure to data and beyond.

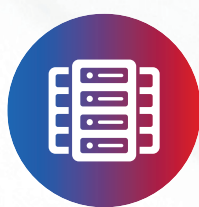

#### **POWERING SMARTER, FASTER SYSTEMS**

Higher power density. Lower switching losses. Higher-voltage solutions that go farther. Thermal efficiency that scales for the world's most demanding applications.

#### **AUTOMOTIVE SOLUTIONS**

Low-voltage MOSFETs, Smart MCDs, and automotive-grade surface-mount packages designed for efficiency, reliability, and performance.

#### **DATA CENTER SOLUTIONS**

SiC & Si Power MOSFETs, and eFuse technologies built to support scalable, high-efficiency data centers.

**150**  
**YEARS**  
Toshiba Group

### **YOU'RE INVITED!**

#### **Make Toshiba Your APEC 2026 Destination**

Henry B. Gonzalez Convention Center  
San Antonio, Texas  
March 22 - 26, 2026  
Location: Booth #1753

To schedule your meeting at APEC, contact Susan Duarte at [Susan.Duarte@toshiba.com](mailto:Susan.Duarte@toshiba.com)
